Bifold Doors

Flexible design that opens your space your way

Bifold doors are an ideal solution for connecting indoor spaces with patios, gardens, and decked areas. Their sliding, folding panels can be configured in a wide range of layouts to improve access and create an open, connected flow throughout your home.

- Superior thermal efficiency
- Safe and secure for all the family

Sliding Doors

Practical design for busy, adaptable spaces

Sliding doors are a reliable choice for high-traffic areas, offering smooth operation and panels that don't intrude on walkways. Ideal for decks and patios where swing space is limited.

Our slimline aluminium sliding and stacker doors provide strength, security, and long-lasting durability for any home.

- Space-saving, non-intrusive design
- Smooth, easy operation
- Durable, secure aluminium build

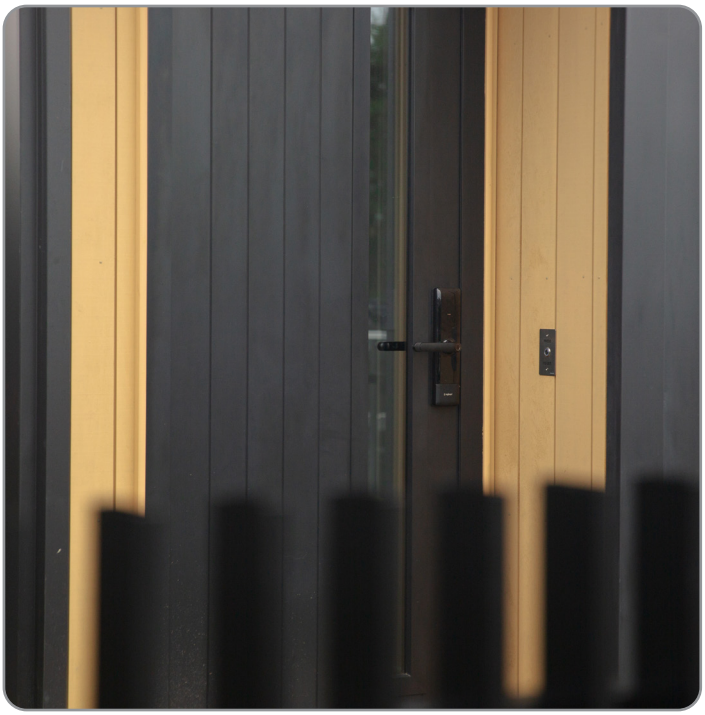

Hinge Doors

Control access, ventilation, and style with ease

NuStyle hinge doors open one side at a time, giving you full control over traffic flow, ventilation, and security. Available in a variety of sizes, they can be tailored to suit the style and proportions of your home.

- Custom sizes to suit your home
- Easy control of access and airflow

French Doors

Classic design, tailored to your home

French doors offer timeless style with unlimited window combinations and a wide range of colours. Designed to bring the outdoors in, they are available in various sizes to suit your home's proportions, with the option to include side windows for added light and elegance.

- Customisable window layouts
- Wide selection of colours
- Optional side windows for extra light

Security Doors

Strong protection without sacrificing style

NuStyle security doors are built to withstand tough conditions while remaining visually appealing. Our diamond grill and mesh system provides reliable protection and peace of mind, while SecureView steel mesh ensures maximum security without obstructing your view.

- Durable, high-strength construction
- Diamond grill and mesh for added security
- SecureView for protection with clear sightlines
